 leetcode/PavithraVS

Skills

Programming languages: C, C++, Python, Java, SQL, Javascript, Typescript, Bash.

Tools: React.js, Next.js, Node.js, Linux, Docker, Git, Github, REST, OAuth 2.0, Tailwind, MUI.

Experience

A2A Point L.L.C Software developer a2apoint.com

Apr 2024 - September 2024, **4 months**

Tech stack: Typescript, Python, React, React Native, Next.js (RSC), Keycloak, Directus, Postgres, Nginx, Docker, blue/green CI/CD.

- The closed community app for real estate agents in UAE, is estimated to have atleast **5000 active subscriptions** per month.
- The project includes web app, mobile apps deployed in [Play store](#) and [App store](#), CMS solutions for admins and users, newsletter, user courses, blogs, MFA authentication, in app ads, payment gateways (stripe), realtime chat, push notifications and much [more](#).

Bosch Software Global Tech Project Trainee bosch-softwaretechnologies.com/

July 2023 - Aug 2023, **2 months**

Tech stack: Qt, C++, Git.

- Led front end and back-end tasks in the **Tools Team**, focusing on Qt application development for the car automation system.
- Designed a dynamic user interface for the “Flash GUI Common Codebase” project featuring **file loading, timestamped history display, file name and date/time display, deletion operations** and more.
- Conducted **debugging and error resolution** in three critical areas, ensuring seamless functionality.

Coding Club GCT Executive member codingclubgct.in [github/coding-club-gct](https://github.com/coding-club-gct)

Jan 2023 - Jan 2024, **1 year**

- **Coding club mono repo:** The monorepo contains 6 Next.js apps and 1 package **published npm** that showcases our club’s integrity in uniform design, code style, theming, maintaing an internal tech stack and much more.

The apps built and deployed by myself individually include:

- **Club home page:** Rebranded our club’s existing homepage app with our new standardized theme ([PR](#)) and included automatic student verification using **Google OAUTH** and student onboarding to our club’s discord server using **Discord OAUTH**.
- **Students webbing:** A webbing to link our club member’s portfolio websites in a circular structure. Find the webbing navigation in my own portfolio as well!
- **Gallery app:** Gallery application to display our club’s events and photos taken.
- **Algolab:** Leetcode like platform built using Monaco editor and a custom judge system that supports compilation of 6 different languages. Self hosted in our **proxmox** instance and also used in conducting fool proof semester examinations.

Projects

Sqlite Clone: Developed CLI database management system to gain expertise in Python, Operating Systems concepts like paging, data structures like B-Tree and enabling basic file based DB creation and management.

Design patterns: Design patterns implementations (C++) and blog. Held seminars and workshop in our club on this topic.

Portfolio: Personal portfolio website with responsive design which also doubles as my personal file server (for resume etc).

Achievements

- **Developer advocate:** Prolific writer in tech in our club [blogs](#), speaker at most of the club events. Mentor and tutored React.js for juniors and peers, who later secured internships in startups.
- **Pragathi Scholarship:** Awarded 4 times for academic performance throughout my college studies, that includes fee waiver and 50k INR+ each time.
- **Leadership:** Held tresaurer at our Department, executive member at 94Gctians public charitable Trust, executive member at Coding Club GCT throughout my years of study.

Education

Government College of Technology, Coimbatore

B.Tech in Information Technology

CGPA: 8.41

2020 - 2024
